Hi Everyone,

This email is for agencies submitting renewals through the FY 2023 HUD CoC Program NOFO process for the Out-Wayne Count CoC.

I am providing you with the final RFP, application and scoring performance metrics worksheet for agencies to use when making a submission to the Ranking Committee for renewal. The Wayne Metro CoC Team will be sending out a communication to the community as well, through the e-blast and posting to the CoC website.

You will complete the application using the Word document attached to this email. The cover of the RFP has the information about the deadline (Tuesday, August 8th by 3pm) and where to submit. The scoring performance metrics worksheet is a required part of the submission.

One quick tip to get started – download a APR from HMIS for the period of January 1 through December 31, 2022. And have a copy of the APR submitted for the most recent grant year through SAGE. Those two reports will be needed to complete the performance metrics.

I will be setting up office hour sessions next week to help with any questions or clarifications people may have. But always feel free to email me as well.

Good luck with all of the work!

Best, Mitch
